Hi all. Great on the Adobe Connect webinar.

Craig - The RPM Q&A guide that you quoted from for the State participation contains outlines for the review package and presentation. There is no difference between a review pre-ROD and post-ROD, meaning ROD amendment. If you already have a ROD amendment drafted you could use that as the template for the review package, and based on the outline in the guide, supplement anything that is missing .

Please keep in mind that the Board members will need to receive the review package at least 3 weeks prior to the web conference. Generally we ask to receive the package 4 weeks prior to the review. If the review package is ready by next week then I believe that it is more realistic to hold the web conference during the week of February 27 instead of February 20.

---

Regular Adobe Connect "webinar" should be OK.

Pls advise Dan directly (cc: us) of what background info is necessary and practical to put up given the focused RoD-A review, and short timeframe.

Thanks, Craig S

Good Morning! You are all now members of the NRRB Quickr site and should receive an email notice. Log in using your first name space last name and Lotus Notes password.

I have created a folder in the left side navigation pane for Westlake. Please post the review package here by following these instructions. If you have problems please call me.

When will the presentation be posted? Also, if there are figures, tables, and maps that are better viewed in 11x17 format then please mail/courier them to the Board members. Here are the addresses

I see Cecilia has requested a video conference for the week of Feb 20. Do you really want a video conference? Will a web conference suffice? We generally don't do video conferences. We don't need to see the presenters, we need to see the presentation therefore we only need our computers, the internet, and a teleconference line. The Board members can participate from their desk or telework location.
